About Me
_____

- **Looking for an Opportunity in Software Development as a Fresher.**
- Learned HTML, CSS, Bootstrap, JavaScript, and ReactJS from Online Courses.
- Knowledge of API integration, Redux.
- Familiar with GitHub.
- I have also attended many online workshops to boost my career.

Key Skills
_____

- **Technologies:** HTML 5, CSS, React JS
- **Languages:** JavaScript
- **Library:** Bootstrap
- **Version Control:** GitHub
- **Tools:** Visual Studio

Projects
_____

1. Quick News (Live News Website)   GitHub Link
          This News Website, developed with HTML, CSS, and ReactJS, seamlessly integrates a free news API for real-time global updates. Its user-friendly interface and responsive design ensure an engaging experience, while the API integration keeps the content current, offering users the latest news dynamically.

          Technology used: HTML, CSS, JavaScript, ReactJS, API Integration

2. SS Restaurant (Restaurant Webpage) GitHub Link
          'SS Restaurant,' is a responsive website using HTML, CSS, JavaScript, React.js, Bootstrap 5, and React Routing. This platform offers an intuitive interface to explore daily specials, offers, and the full menu, with added functionality for hassle-free restaurant event bookings. My development expertise with React.js and Bootstrap ensured a visually appealing design and smooth user navigation, enhancing the overall user experience.

          Technology used: HTML, CSS, Bootstrap, JavaScript, ReactJS, React Routing

Educational Qualification
